

FACING THE CHALLENGE

Shortage of qualified personnel and the high costs associated with providing 24/7 service in Hotels, resulting in:

- **High operational costs**
- **Limited staff**

SOLUTION

Generative AI Engine for unique Experiences

Services offered by the generative AI, such as reservations, facility control, and more.

- **Effortless 24/7 Service**
- **Generative LLM**
- **Voice-Activated**
- **Multi language**

MIBO “Mind In the Box” architecture

An **offline** mini server that includes:

- Agent
- Database knowledge
- LLM

By operating **independently** of online networks it ensures that sensitive guest **data privacy** remains **secure** and protected.
